

Adult: What do you want County Durham to look like in the future?

Child voice (from here on):

There needs to be homes for me and my family to live in. And they need to be where I want to live.

I want shops and offices and businesses, so I can get a job when I'm old enough.

There'll have to be doctors for when I'm sick. And schools so I can learn. And I need to be able to get there.

And there has to be parks to play in. And woods and ponds and fields so there's places for the birds and animals to live.

That's the County Durham I want, what about you?
