The aim of this Service is to ensure that children and young people who are carers are protected from inappropriate caring responsibilities and have the support they need to learn, develop and thrive, to enjoy positive childhoods and to achieve their potential.  Latest census statistics (2011) reveal there are 166,363 young carers in England, compared to around 139,000 in 2001. This is likely to be an underrepresentation of the true picture as many remain under the radar of professionals.
