## HANDLIST 2 : PARISH REGISTERS

Issue no. 42

September 2005

Listed below are the Church of England parishes in the diocese of Durham and those parishes in the diocese of Ripon which are in the county of Durham. Where baptism, banns, marriage or burial registers for these parishes have been deposited in the Durham Record Office the covering dates of the registers are given. The dates given are those of the earliest and most recent baptism, banns, marriage or burial register held in the Record Office, but it must not always be assumed that all four types of register exist for the whole period indicated. *Where no dates are given for a parish, no registers are held in the Record Office and information concerning the registers should be sought from the incumbent.* The catalogue reference for each parish is given after the covering dates.

All registers held in the Record Office are on microfilm and to see them it is therefore necessary to reserve a microfilm reader. The original registers will not be made available.

"B" indicates that marriage and some banns registers (usually to 1812) are indexed in Boyd's Marriage Index, a copy of which is available in the Record Office.

"I" indicates that baptism and/or marriage registers (usually to mid-19th century) are indexed in the International Genealogical Index, a copy of which is available in the Record Office.

"T" indicates that transcripts and/or indexes to some of the registers are held in the Record Office, for fuller details see **Handlist 3: Modern Transcripts and Indexes (Church of England)**
