Internal Audit, Risk and Fraud: Corporate Fraud Team

This Privacy Notice tells you about what information we collect about you, how we use that information and who we share it with.

1. Who we are and what we do

Durham County Council has a responsibility to protect the public purse and recognises the potentially significant risk that fraud and corruption pose to the achievement of the Council's aims and objectives. The public also expects the Council to safeguard public funds and ensure they are available and used for their intended purpose that of providing services for the residents and service users of the Council.

As part of this responsibility the Council actively participates in the National Fraud Initiative (NFI), a national data matching exercise currently run by the Cabinet Office under its statutory powers.

As well as the NFI, under the Council's Counter Fraud and Corruption Strategy and within the Counter Fraud Operational Plan, a programme of local data matching/analytical exercises is also included to proactively seek out fraud and error in areas identified as being at risk of fraud.

The Corporate Fraud Team has data warehousing software which allows for this programmed work to be carried out, by collecting data from various sources both internally and from external organisations i.e. other Local Authorities.

The main NFI data matching exercise currently occurs over a two year cycle but is moving to real-time and 'near' real-time fraud prevention activity.
