Dear Neighbour [or name if you know it]

I would like to make you aware that I am being disturbed by noise from your property in the hope that you can do something about it.

I am disturbed by noise from [type of noise] that can be heard within my property and this is having a negative impact on my life and the enjoyment of my home.

You may wish to have a look at the Council's website as there is a lot of useful information on it about noise from neighbours.

Whilst I appreciate you may be unaware that I have been disturbed, I would be grateful if you could do what you can to reduce the noise to an acceptable level.

If you would like to have a chat about this, please do not hesitate to contact me.

Thanks
