

Existing controlled crossing point to remain operational

**Key**

- Additional pedestrian space to be created within the carriageway formerly occupied by parking/loading bays and bus stops.
- Bays to be suspended and lined with traffic cones to separate pedestrians from through traffic.
- Bus Stop Closure - Promontory required on carriageway for disabled access [see Standard Detail]
- Waste bin to be relocated out of the line of pedestrian travel or alternatively completely removed from site
- Planter to be relocated out of the line of pedestrian travel or alternatively completely removed from site
- Existing loading bay coned off
