

Sheet 1 Prehistoric Hunter Gatherers

Image Copyright Don Henson CC BY-NC 4.0

The picture above shows a prehistoric hunter gatherer camp. It is near a lake and includes various constructed items -canoes, houses and other things. You can see that the area is in a clearing.

What are the items in the picture made of? Where might that have come from and what effect would getting them have had on the area?

What would the people who lived here have eaten? How would they have got foodstuffs and what effect would that have had on the area?

How would the people that lived here travel? And what effects would that have on the area?
