

Sheet 3 Roman Farmers

Image Courtesy and © Take27Ltd

The picture above shows a Roman villa farm. It includes a whitewashed house and storage building, as well as a wooden granary. There is a stone wall around the house and animals are kept within the walls. There are two garden areas, as well as haystacks and an orchard.

What are the items in the picture made of? Where might that have come from and what effect would getting them have had on the area?

What would the people who lived here have eaten? How would they have got it and what effect would that have had on the area?

How would the people that lived here travel? And what effects would that have on the area?
