Behaviour on School Transport Policy

Principles of the Policy

When applying for home to school transport parents are required to complete an application on behalf of their child and will be required to sign a declaration agreeing that:

- you have read and agree to abide by the conditions as set out in the Home to School Transport Policy and this policy, the guidelines and the home to school transport behaviour leaflet;
- that the student agrees to this application being made;
- you give permission for us to check the information provided on the application form and in any supporting documents with your school, college or medical practitioner;
- you will inform us immediately of any change of address and that you understand if you have provided any information that is incorrect or incomplete, we will withdraw your travel assistance immediately, all costs may need to be repaid.

Should any information made available to us by you be deemed to be inaccurate we reserve the right to remove the provision of free travel and to seek reasonable compensation for the cost of any travel that has been provided.

Data Protection - We comply with all relevant statutory obligations with regard to personal information processed by us and this will be handled in accordance with our privacy statement which can be accessed at www.durham.gov.uk/dataprivacy By signing the declaration you

- understand that we may check the details provided on this application against other council records to confirm that the student and you are resident at the address supplied;
- understand that we may share information with other agencies where it is necessary to do so and where the law allows; and
- may be investigated and we may take action against you (including court action) if there has been a fraudulent application as Durham County Council is under a duty to protect the public funds it administers.

We are fully committed to providing and maintaining safe home to school transport arrangements for children and young people in County Durham.

At the heart of this policy is a commitment to ensuring that home to school transport for young people in Durham is as safe and secure as is possible, and that the policy operates to the advantage of all of the children and students who are eligible to use the transport to their schools,

We are also mindful of our responsibilities towards the community, other road users, bystanders and where transport is shared, the general public.

The policy is underpinned by the following key principles: School staff, children, parents, operators, drivers, passenger assistants, governors and the Local Authority (LA) should work in partnership.

All children who have a right to school transport should be able to travel in a safe, secure and non-oppressive environment.

All partners in school transport (children, parents/carers, drivers, operators, passenger assistants, school staff, governors and the LA) need to be aware of their role, rights and responsibilities and be fully committed to these.

Rights and Responsibilities of the Partners

All partners in school transport - parents, children, schools, governors, the Transport Behaviour Officers (TBOs) (on behalf of the LA), operators, drivers and passenger assistants have entitlements, described below, in relation to that provision. However, those entitlements can only be met where they and the other partners fully comply with their responsibilities. It is important to ensure, therefore, that there are consequences and/or sanctions which can be applied where one or more partner fails to meet their responsibility, to ensure that no entitlements are affected, and that school transport meets the needs of all "users".

Where there is felt to be a cause for complaint in connection with the LA's, school's, operator's, driver's or passenger assistant's failure to meet responsibilities the TBO's must be advised in writing via email to schooltransportteam@durham.gov.uk.

This policy also gives parents a right to have a review of the decision made by the school to a TBO regarding the short and long-term withdrawal of a child's transport.

Sanctions/Consequences

- a sanction should only be applied after investigation of an incident;
- where a sanction has been applied parents / carers have access to an appropriate form of review;
- all long term sanctions which include removal of transport should be subject to regular review;
- sanctions should be fair and appropriate to the seriousness of the incident(s) / behaviour(s) which led to their application;
- the procedure by which a sanction is applied should ensure that the child is informed by the school about the reasons for it; the parent / carer should also be informed by the school;
- the Transport Behaviour Officers must approve all cases where transport is to be removed;
- the most serious sanctions will not be applied until all other sanctions have been tried and have demonstrably failed, unless the incident is so serious that it would be appropriate to apply a more serious sanction immediately*, including withdrawal of a bus pass on a fixed term or permanent basis;

- where a child/student's behaviour on transport is causing concern, he / she will be advised of the consequences of a failure to improve behaviour by the school; the parent / carer should also be kept informed by the school;
- there should be the highest possible degree of predictability in the application of sanctions, and those children who breach their responsibilities should be clearly aware of the consequences of such breaches.
- It is anticipated that each school may wish to incorporate behaviour on transport into its behaviour policy remit;
- the Transport Behaviour Officers will place a high priority on publicising to all partners, clearly and accessibly, their relevant entitlements and responsibilities, and outline to them the consequences of failures to comply with their responsibilities;
- in the most serious of cases, transport privileges will be withdrawn on a permanent basis without a substitution of alternative arrangements.

***Immediate removal of transport privileges will be implemented if a child/student is:**

- Carrying a blade or other sharp instrument that can be used to damage the bus;
- Smoking or carrying a lighter/matches onto the bus;
- Using an electronic cigarette;
- Carrying or taking drugs;
- Damaging the vehicle;
- Opening the emergency door;
- Touching the controls of the vehicle;
- Physically violent to the driver or passenger assistant.

Factors which need to be considered in Applying Sanctions

- the seriousness of the incident / behaviour, and its impact on others;
- the frequency of such incidents / behaviours by the child/student.

Consideration should also be given to the:

- age and understanding of the child/student;
- any Special Educational Needs the child may have;
- the degree of peer or other pressure;
- whether the incident / behaviour was perpetrated alone, or as a part of a group
- the intention of the child;
- the child's emotional state;
- the child's behavioural history on school transport;
- the circumstances preceding the incident;
- the impact of the behaviour on others and / or property;
- the interventions / strategies used by the school and / or others to manage / change the child's behaviour.

Conclusion

The Policy will be supported by Guidelines (Appendix 1), developed by us in partnership with schools and operators. The Guidelines will spell out clearly, and in detail, the expectations placed upon each partner, and will be communicated widely.

We believe that where all partners are aware of their rights and responsibilities; are committed to meeting such and work together, then an effective framework will be in place to ensure that home to school transport in Durham is safe and secure for all our children and young people.
