ORGANISATION	

NOTE

The information gathered in this form may constitute personal data as defined in the Data Protection Act 1998. Any personal data will be processed in accordance with the requirements of that Act.

Please note that it is an offence under Section 33 of the Health and Safety at Work Act to provide false information. Incomplete or inaccurate information could result in a delay in processing your application.

The information entered in this form may be stored electronically. The information may, where appropriate, be shared with other relevant bodies such as other licensing authorities, local authorities, the police or the Health and Safety Executive. You have the right to request a copy of any personal information and to have any inaccuracies corrected.

Guidance to applicants**This form should only be used for the application to sell 'Fireworks'**

Please complete the application form using either **black** ink or type. If there is insufficient room to provide the information requested please continue on a separate sheet(s).

Please contact Durham County Council 'Fireworks Licensing' if you have any questions about completing this form or about your application.

You need a separate Storage licence to store more than 5 Kg and less than 2000 Kg of HT4 fireworks

If you are keeping any of the more powerful Hazard Type 3 explosives then the quantities are reduced to 100 kg. *Please seek further advice from your supplier if you are uncertain about the hazard types of explosive you wish to store.*

. If you want to store more than **2 tonnes** of explosives you should to apply to the Health and Safety Executive for a licence (on Form LP41, available at www.hse.gov.uk/forms/explosive/index.htm or by telephoning 0151 951 4741).

The quantities referred to above are the '*net mass*' of the explosives. This means the weight of the explosive contained within an article (ie less packaging, casings etc). In the case of fireworks and other pyrotechnic articles this is assumed to be one quarter of the gross weight of the article – unless you have more specific information from the supplier.

If the store location does not have a postal address (e.g. a store in a field) please include a map (1:25000) showing its location. The licensing authority will also wish to see a floor plan of the sales area if you plan to store or display more than 12.5 kg of fireworks there.

<p>The licensing authority will not normally visit your premises before granting a licence to sell but may wish to inspect the site when an application is made to store quantities of explosives. The authority may prohibit storage of explosives at the site if it believes the site is unsafe. It may also take enforcement action if you are not storing safely.</p>
