

Warm and Healthy Homes

County Durham and Darlington
Fire and Rescue Service

**Supported by Durham County Council,
Housing Solutions and County Durham
and Darlington Fire and Rescue Service.**

Durham County Council has launched the Warm and Healthy Homes Scheme; our aim is to help vulnerable private sector residents access energy advice, efficient heating and insulation measures.

The scheme will also help clients who have a health condition resulting from living in a cold damp home.

We will also offer referrals a benefit entitlement check and a home fire safety check which will be carried out by County Durham and Darlington Fire and Rescue Service.

If you require further information on the scheme and to make referrals please contact us on 03000 268000 or email

warmhomes@durham.gov.uk

This offer is subject to the scheme's T&C which will be made available on application.
